DEC 17 1997

On August 14, 1996, Applicants filed a Request for Filing Continuation Application Under 37 C.F.R. § 1.60 of pending prior Application No. 08/334,616, filed November 3, 1994 for "METHOD AND SYSTEM FOR CUSTOMIZING FORMS IN AN ELECTRONIC MAIL SYSTEM," which subsequently issued as Patent No. 5,557,723 on September 17, 1996. Applicants' representative erroneously mailed the Request and accompanying documents to the Assistant Commissioner for Trademarks. A confirmation of receipt of the patent application was received from the Trademark Mailroom dated August 14,

Adjustment date: 12/18/1997 FCONNELL

On January 8, 1997, Applicants' representative initiated a search. The U.S. Postal service confirmed delivery on August 16, 1996 of Express Mail package EM209353178US. It was signed for by "Duncan." Applicants' representative spoke with two people in the Trademark Mailroom on two different dates. On January 8, 1997 and March 19, 1997, Applicants' representative received assurances that patent applications

received in the Trademark Branch are immediately forwarded to the Patent Application Branch. Applicants' representative was told that there are no utility patent applications being held in the Trademark Branch. Upon checking with the Patent Application Branch on the same dates, Applicants' representative was advised that the process is slowed considerably by the mailing error but to "wait another month or so" for a filing receipt. On April 7, 1997, it was confirmed by the Patent Application Processing Department that this application had not been received.

Applicants respectfully request that the filing date of August 14, 1996 be preserved and granted to this application. Enclosed is a complete copy of the application as originally submitted and copies of supporting documents. Also enclosed is the petition fee of \$130 as required.

Respectfully submitted,

Nick Holt and Steve Thomas
